BIOCHEMISTRY AND CELL BIOLOGY

BIOCHIMIE ET BIOLOGIE CELLULAIRE

VOLUME 65, 1987

Author Index / Index des autuers

Adam, M. see Orr, L., 1080

Allan, B., and Kropinski, A.M. DNA-dependent RNA polymerase from *Pseudomonas aeruginosa*, 776

Almeida, A.F. see Severini, A., 95

Altman, E., Brisson, J.-R., and Perry, M.B. Structural studies of the capsular polysaccharide from *Haemophilus pleuropneumoniae* serotype 2, 414

Altman, E., Brisson, J.-R., Bundle, D.R., and Perry, M.B. Structural studies of the O-chain of the phenol-phase soluble lipopolysaccharide from *Haemophilus pleuropneumoniae* serotype 2, 876

Altman, E., Brisson, J.-R., and Perry, M.B. Structure of the capsular polysaccharide of *Haemophilus pleuropneumoniae* serotype 3, 960

Altosaar, I. see Bhella, R.S., 762

Anwar, R.A. see Raju, K., 842

Archibald, F. see Caldwell, M., 651

Arthur, G., Zaborniak, C.L., and Choy, P.C. The presence of 1-radyl-glycerophosphoethanolamine acyltransferase acitivity in guinea pig heart mitochondria, 1016

Aubry, M., Berteloot, A., Beaumont, A., Roques, B.P., and Crine, P. The use of a monoclonal antibody for the rapid purification of kidney neutral endopeptidase ("enkephalinase") solubilized in octyl glucoside, 398

Ayala, J.A. see Rojo, F., 62

Badakhsh, S. see Barak, A.J., 230

Bag, J., and Pramanik, S. Attachment of mRNA to the cytoskeletal framework and translational control of gene expression in rat L6 muscle cells, 565

Baker, R.R., and Loh, Z.D. The release of radioactive arachidonate from lipids of red blood cells during prolonged incubation in vitro, 444

Banoub, J.H., Michon, F., and Hodder, H.J. Structural elucidation of the O-specific polysaccharide of the phenol-phase soluble lipopolysaccharide of *Vibrio anguillarum*, 19

Barak, A.J., Beckenhauer, H.C., Tuma, D.J., and Badakhsh, S. Effects of prolonged ethanol feeding on methionine metabolism in rat liver, 230

Barua, M., and Majumder, G.C. Enzymic characteristics of ecto-phosphoprotein phosphatase in goat epididymal intact spermatozoa, 602

Baumal, R. see Sheldon, K., 423

Beattie, L.L. see Gerrard, J.M., 642

Beauchemin, N., Paquette, J., and Cedergren, R. Site-directed protection of RNA during nuclease digestion, 43

Beaumont, A. see Aubry, M., 398

Beckenhauer, H.C. see Barak, A.J., 230

Berenguer, J. see Rojo, F., 62

Berry, L.R. see Hatton, M.W.C., 271

Berteloot, A. see Aubry, M., 398

Beveridge, T.J. see Wood, J.M., 507

Bhatnagar, G.M. see Srivastava, U.S., 833

Bhattacharyya, B. see Choudhury, G.G., 558

Bhella, R.S., and Altosaar, I. Production of multiple forms of glucoamylase in *Aspergillus awamori*, 762

Bird, R.C., and Sells, B.H. Small cytoplasmic RNAs and their location within the cytoplasm, 582

Biswas, B.B. see Choudhury, G.G., 558

Blecher, S.R. see Robertson, N.W., 658

Blostein, R., and Grafova, E. Characteristics of membrane transport losses during reticulocyte maturation, 869

Boileau, G. see Melançon, P., 1022

Bolard, J. see Gruda, I., 234

Bols, N.C. see Heikkila, J.J., 310

Boux, J. see Tagger, A.Y., 925

Bowness, J.M. Cartilage fucoproteins with sites for cross-linking by transglutaminase, 280
Bozzato, R.P., and Tinker, D.O. Purification and properties of two phospholipid transfer proteins from yeast, 195
Bozzato, R.P., Woolley, D., and Tinker, D.O. Catalytic properties of the yeast phospholipid transfer protein, 203
Brakier-Gingras, L. see Melançon, P., 1022
Braun, H. see Jacobson, A.L., 429
Breckenridge, W.C. see Tam, S.P., 252
Brickenden, A.M. see Cates, G.A., 767
Bridger, W.A. see Wolodko, W.T., 452
Brisson, J.-R. see Altman, E., 414
Brisson, J.-R. see Altman, E., 876
Brisson, J.-R. see Altman, E., 960
Brown, G.G. see Robitaille, P.-M.L., 474
Brown, H.D. see Das, Y.T., 798
Brunengraber, H. see Endemann, G., 989
Bruser, B. see Klein, A., 409
Bundle, D.R. see Altman, E., 876
Bundle, D.R. see Di Fabio, J.L., 968

BIOCHEMISTRY AND CELL BIOLOGY/ BIOCHIMIE ET BIOLOGIE CELLULAIRE
VOLUME 65 (1987)
SUBJECT INDEX/INDEX DES MATIÈRES

Acanthamoeba phalloidin viroisin cell permeabilization 261
Acetate metab lipogenesis ketone body 989
Acetylcholinesterase erythrocyte membrane detergent 8
Acetylcholinesterase ligand inhibitor interaction energetics 798
Acid phosphatase formation processing prostate 921
Acid secretion gastrin calcium stomach 144
Acinetobacter citrate synthase gene sequence 930
ACTH pituitary salmon 386
Actin depolymer UV phalloidin 376
Actin gelation gelactin calcium liver 543
Acylglycerophosphoethanolamine acyltransferase heart mitochondria 1016
Acyltransferase radylglycerophosphoethanolamine heart mitochondria 1016
Adenocarcinoma ovary monoclonal antibody 423
Adipose mitochondria uncoupling protein 245
Adipose uncoupling protein mRNA deacclimation 955
ADP ribose polymer prepn purifn 668
ADP ribosylation histone HMG protein Physarium 81
Adrenal cortex adrenocortical chromaffin cell 588
Adrenocortex cytochrome P 450 oxyferrous complex 486
Adrenocortical chromaffin cell adrenal cortex 588
Affinity chromatog transferrin 948
Agglutinin binding protein Dictyostelium development 68
Aging polyspermia sea urchin ovule 1064
Alc metab ketone body 989
Alc metab liver 458
Alc methionine synthetase liver 230
Alk phosphatase osteosarcoma glycoprotein antigen 1091
Alkenylglycerophosphoethanolamine acyltransferase heart mitochondria 1016
Aminotransferase aspartate heart cytosol mitochondria 239
Amphotericin B sterol complex lipid vesicle 234
Amylase alpha Schwanniomyces 899
Androgen steroid reductase prostate growth 626
Anhydrase carbonic thyroid hormone muscle 790
Anion exchange chromatog transferrin 948
Antibody monoclonal characterization specificity cytochrome c 783
Antibody monoclonal enkephalinase affinity chromatog kidney 398
Antibody monoclonal osteosarcoma glycoprotein phosphatase 1091
Antibody monoclonal ovary adenocarcinoma 423
Antibody monoclonal proline dehydrogenase Escherichia 507
Antigen conformation cytochrome c monoclonal antibody 783
Antigen O Pseudomonas structure Brucella crossreactivity 968
Antigen O structure Haemophilus 876
Antigen O structure Yersinia lipopolysaccharide 1
Antigen O Vibrio lipopolysaccharide structure 19
Antigen osteosarcoma glycoprotein alk phosphatase 1091
Antitumor hydroxyurea uptake cell 925
Aorta cell division glycoprotein oligosaccharide 595
Apotransferrin iron binding transport 271
Arachidonate eicosapentaenoate metab platelet thrombin 405
Arachidonate lipid erythrocyte brain hemorrhage vasospasm 444
Arginine transport mitochondria respiration liver 1057
Arsenite heat shock protein formation 310
Asialoglycoprotein receptor liver dimyristoylphosphatidylcholine liposome 56
Aspartate aminotransferase heart cytosol mitochondria 239
Aspartate essential tonin sequence submaxillary gland 321
Aspergillus glucoamylase multiple form 762
Assembly succinyl CoA synthetase refolding Escherichia 452
ATP membrane release reticulocyte maturation 1080
ATPase sodium potassium lymphocyte mitogenesis 95
Azotobacter cytochrome oxidase phosphatidylethanolamine activation 978
Bacillus catalase 1 939
Basic nuclear protein repeated sequence flounder 909
Blood platelet protein phosphorylation lysophosphatidate 642
Brain cytosol glycosphingolipid transport protein 493
Brain hemorrhage vasospasm arachidonate lipid erythrocyte 444
Brain lysopolyphosphoinositide phosphatase microsome 890
Brucella crossreactivity Pseudomonas O antigen structure 968
Butyrylcholinesterase activation kinetics mechanism 529
Calcineurin phosphorylation casein kinase 1 917
Calcium acid secretion gastrin stomach 144
Calcium gelactin actin gelation liver 543
Calmodulin troponin C target compd cation 982
cAMP protein kinase isoenzyme heart mitochondria 137
Cannabinoid sperm fertility 130
Capsule polysaccharide Haemophilus structure 414
Capsule polysaccharide structure Haemophilus 960
Carbonic anhydrase thyroid hormone muscle 790
Carboxypeptidase A activator inhibitor kinetics mechanism 717
Cartilage fucoprotein crosslinking transglutaminase 280
Casein kinase 1 calcineurin phosphorylation 917
Catalase 1 Bacillus 939
Cathepsin C fibroblast Duchenne dystrophy substrate 617
Cation troponin C calmodulin target compd 982
Cattle chicken elastin cDNA sequence 842
cDNA elastin sequence chicken cattle 842
Cell chromaffin adrenal cortex adrenocortical 588
Cell cycle protein formation 219
Cell cycle protein kinase compartmentalization 1070
Cell cycle ribonucleotide reductase subunit 35
Cell division aorta glycoprotein oligosaccharide 595
Cell glycoprotein secretion oligosaccharide 345
Cell hydroxyurea uptake 925
Cell mammal DNA repair complementation 803
Cell membrane neutral sphingomyelinase sperm 525
Cell mRNA binding cytoskeleton translation 565
Cell neuroblastoma retinoid binding protein 163
Cell permeabilization Acanthamoeba phalloidin viroisin 261
Chicken cattle elastin cDNA sequence 842
CHO cell cholesterol auxotrophy heat 635
CHO mutant plasminogen activator DMSO 710
Cholesterol auxotrophy CHO cell heat 635
Cholesterol fat protein diet serum lipoprotein 610
Choline glycerophospholipid formation heart 860
Chromaffin cell adrenal cortex adrenocortical 588
Chromatog affinity enkephalinase kidney monoclonal antibody 398

Chromatog affinity enkephalinase monoclonal antibody kidney 398
Chromatog immunoaffinity phospholamban 302
Chromatog transferrin plasma heterogeneity 948
Chylomicron lymph fat diet intestine 514
Citrate synthase gene sequence Acinetobacter 930
Cloning citrate synthase gene Acinetobacter 930
Cloning DNA Syrian hamster 997
Colchicine sialyltransferase serum organ 183
